Education

Indraprastha Institute of Information Technology Delhi (IIIT-D) **2026 — Present**
M.Tech in Computer Science and Engineering Roll No: MT26106

Charotar University of Science and Technology **CGPA: 9.44/10.0**
B.Tech in Computer Science and Engineering 2022 — 2026

Skills

Core Subjects:	Data Structures & Algorithms, Operating Systems, DBMS, Theory of Computation
Languages:	C++, Python, Java, JavaScript, SQL, PHP
Machine Learning / NLP:	Hugging Face, T5 Fine-Tuning, Supervised Learning, Model Evaluation, CNN, Computer Vision, MediaPipe
Databases:	PostgreSQL, ClickHouse, MySQL, Supabase
Web Technologies:	HTML, CSS, JavaScript, React 19, Vite, PHP, ASP.NET, Cloudflare Workers, REST APIs

Work Experience

AI/ML Engineer Intern — StoreApps, Mumbai **May 2025 — Aug 2025**
Tech Stack: Python, Hugging Face, T5, PostgreSQL, ClickHouse, SQL, NLP

- Designed and implemented an end-to-end system to translate natural language queries into executable SQL statements.
- Fine-tuned the T5 (Text-to-Text Transformer) model using Hugging Face for structured text-to-SQL generation.
- Constructed and curated 5,000+ high-quality NL–SQL pairs for supervised model training.
- Developed a schema-aware generation and validation pipeline to enforce syntactic and semantic correctness.
- Integrated PostgreSQL and ClickHouse backends for dynamic query execution and systematic evaluation.
- Conducted structured error analysis to identify failure cases in joins, aggregations, and nested queries, improving overall model reliability.

Web Development Intern — Purvi Softech, Palanpur **Jun 2024 — Jul 2024**
Tech Stack: Web Development, Routing Systems, Real-Time Alerts, PHP, MySQL

- Designed and implemented a smart school bus transportation system.
- Developed routing and real-time alert modules for enhanced student safety and driver fleet tracking.

Projects

Atelier — Project & Architectural Collaboration Platform **Deployed • GitHub**
Tech Stack: React 19, Supabase, Cloudflare Workers, Vite, jsPDF, REST APIs

- Designed and developed a full-stack project management web application for architectural design teams featuring interactive drag-and-drop task boards and visual design mood boards.
- Architected Supabase backend with PostgreSQL, real-time activity feeds, threaded commenting, and secure JWT authentication.
- Engineered client-side image compression, automated file cleanup, and dynamic architectural client documentation export using jsPDF.
- Successfully deployed to production with Cloudflare Workers / Vercel with single-page application (SPA) client-side rewrite routing.

Posture Detection System **Jul 2024 — Sept 2024**
Tech Stack: Python, MediaPipe, Computer Vision, OpenCV

- Implemented a keypoint-based posture detection system using Python and MediaPipe for real-time classroom posture analysis and automated reporting.
- Designed a real-time posture monitoring system with an automated feedback mechanism for posture correction.

Skin Cancer Detection using CNN **Deep Learning Project**
Tech Stack: Python, CNN, Deep Learning, Image Classification

- Implemented and trained a convolutional neural network for dermoscopic image classification.

- Applied preprocessing, data augmentation, and regularization techniques to improve model generalization.
- Evaluated the model using a confusion matrix and classification metrics.

Research And Publications

Real-Time Sitting Student Posture Detection for Students in Classroom Environment **Jul 2024 — Sept 2024**

Tech Stack: Python, MediaPipe, Computer Vision, Pose Estimation

- Designed a real-time posture detection system using Python and MediaPipe with automated ergonomic correction feedback.
- Presented at ICACRS 2024 and published in **IEEE Xplore**, indexed in **Scopus**.
- DOI: 10.1109/ICACRS62842.2024.10841644

From Campus Life to Career Prospects: Analyzing Key Determinants in Student University Selection **Aug 2025**

Tech Stack: Data Analytics, Empirical Modeling, Survey Analytics — **Springer Nature**

- Conducted comprehensive statistical and empirical analysis on university selection criteria across 496 student respondents.
- Published as a conference book chapter in *Lecture Notes in Networks and Systems* (LNNS, Vol. 1319), ICTCS 2024, **Springer Nature Singapore**.
- DOI: 10.1007/978-981-96-4145-1_26

Awards And Achievements

- **GATE (CSIT) 2026** — AIR 3011 — Secured **98.5 percentile**.
- **GATE (CSIT) 2025** — AIR 3917 — Secured **97.7 percentile**.
- **NPTEL Certification in Database Management Systems** — Recognized among the **Top 5% performers**.
- **NPTEL Certification in Programming in Java** — Elite Certification.
- **Smart India Hackathon 2024** — Cleared the Initial Round.

Declaration

The above information is correct to the best of my knowledge.

Name: Yashvi Patel | **Date:** September 2026
